**KAVEH KIANNI
PRIMARY EXAMINER**

Art Unit: 2883

This application contains claims directed to the following patentably distinct species of the claimed invention: Group I, claims 1-18 and 20-21 directed to optical connector including an adhesive which does not deform at least 200 degree. C; Group II, claim 19, directed to optical connector including an optical fiber terminated in the ferrule..

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, none of the claims are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Art Unit: 2883

During a telephone conversation with Mr. Rosenblatt on 10/20/05 a provisional election was made without traverse to prosecute the invention of Group I, claims 1-18 and 20-21.

Affirmation of this election must be made by applicant in replying to this Office action. Claim 19 is withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with MR. Rosenblatt on November 7, 2005. Also this examiner's Amendment is allowed because the applicant's election of claims 1-18 and 20-21 has been without traverse. Thus the non-elected claims are cancelled by the examiner in order to make the case allowable. This examiner amendment is done to expedite the allowance of the case.

Please cancel claim 19.

In the first lines of Claims 1, 13, 20 and 21 please delete "[A]" and insert 'An'

Reason for Allowance

Claims 1-18 and 20-21 are allowed for the following reasons:

The instant application is deemed to be directed to a nonobvious improvement over the invention patented in Pat. No. Anderson et al. (US 2004/0190841).

Claims 1-18 and 20-21 are allowed because the prior art of record, taken alone or in combination, fails to disclose or render obvious said housing comprising a polymer material that does not deform when exposed to temperatures of at least 210° in combination with the rest of the limitations of the base claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
